

OBJECTIVE

Seeking an opening with in a project where I can continuously learn in the pursuit of achieving techno-functional excellence. Use my skills to add value to the project, thus achieving optimum career growth.

TECHNICAL SKILLS

SAS Skills

Skills : SAS 9.4, SAS/BASE, SAS/MACRO, SAS/SQL, SAS/ACCESS, SAS/ODS, SAS/STAT, SAS/GRAPH
Database : Oracle, MS SQL Server, SQL
Operating System : Windows, UNIX
Web Applications : SAS FCM, SAS SNA, SAS ECM, SAS AML, SAS VA, SAS ESP
SAS Tools : SAS DI Studio, SAS SMC, SAS Workflow, SAS ENTERPRISE GUIDE

JAVA Skills

Languages : JAVA
Enterprise Technologies : J2EE
Web Technologies : JSP, CSS, HTML, JavaScript, Servlet
Markup Languages : XML, JSON
Frame Works : Spring Framework 3.0.5 , Struts
Web Services : SOAP, REST
Datasbase : MYSQL 5.5, SQL, PL/SQL
App/Web Server : Glassfish 2.0, Tomcat 6.0, Websphere
Design pattern : MVC
Tools IDEs : Net Beans 7.0, Eclipse
Software Products : Jasper Soft (iReport3), SQLyog, SQL*plus, Firebug, SQL Management Studio 2008, Bugzilla

SKILL PROFILE

- **SAS Developer** with over 7 years of programming/analysis experience in SAS/JAVA on **Windows and UNIX environment**.
- Strong **SAS** programming background for **creating, maintaining existing code, ad hoc reporting** and supporting the reporting functions.

- Experience in **SAS** to extract data from a variety of operational data sources on multiple platforms, and build a data warehouse and data marts that integrate the extracted data.
- Experience in using **SAS** to **read, write, import** and **export** to another data file formats, including **delimited files, Microsoft Excel, PDF** and **MS Access tables**.
- Additional experience includes using **Procedures, Graph, Macros, Data Step and SQL** extracting internal/external data including cleaning and validation, use of formats and in formats.
- Experience in **SAS/BASE, SAS/SQL, SAS/MACROS, SAS/GRAPH, SAS/ACCESS, SAS/ENTERPRISE GUIDE**.
- Involved extensively in **Data Extraction, Transformation, Loading**.
- Experience in developing complex **SAS programs, macros** for data updates, data cleansing, and Regulatory Reports.
- Highly motivated individual with excellent organizational and interpersonal skills.
- Possess strong ability to quickly adapt to new applications and platforms.

ACDEMIC QUALIFICATION

- Diploma in Engineering from Board of Technical Education, Kerala completed in 2012 with 73%.
- H.S.C from State board completed in 2009 with 75%.
- S.S.L.C from State board completed in 2007 with 92%

PROFESSIONAL EXPERIENCE:

Project #1

Organization : Indovision Services Pvt. Ltd. /Ahana Systems and Solutions (P) Ltd. (Technical Lead)

Client : IDBI Bank

Duration : 22 July 2019 – 29 Feb 2020

Team Size : 10

Environment : SAS, XML, UNIX, Oracle

Responsibilities:

- Integration of FCM, ESP and ECM to populate online alerts.
- Integration of FCM and ESP for making an UI for changing the thresholds in online scenarios.
- Developed models in ESP for the integration of FCM.
- Integrated ECM application with SAS Stored Process and developed customized Search UI screens.
- Integration of ECM with SNA for the Network diagram of each customer.
- Users, Groups and Roles creation in SAS Management Console for analyst, investigator, manager.
- Developed and deployed ECM Workflow using SAS Workflow Studio.
- Performed UI Level Changes in ECM.
- Interaction with end users to identify their business requirements and determining of objectives.

Project #2

Organization : CapSwipe (SAS Developer)
Client : RBL Bank
Duration : 13 May 2019 – Present
Team Size : 5
Environment : SAS, XML, UNIX, Oracle

Responsibilities:

- Integration of SNA and ECM to populate online alerts
- Created and maintained SAS Stored Process under SNA
- Validated the alerts generated above the business recommended thresholds.
- Used SAS Data Integration Studio to develop various job processes for ETL
- Purging of data from Oracle tables
- Developed SAS code using Macros to run recurring jobs and optimized code.
- Scheduling Jobs to IBM flow manager.
- Modified and migrated production processes to significantly reduce processing time.
- Innovative, goal oriented and creative approach to delivering results.

Project #3

Organization: Wipro (Project Engineer)
Client : RBL Bank
Duration : Feb 2017 – Apr 2019
Team Size : 8
Environment : SAS, XML, UNIX, Oracle

Responsibilities:

- Design and develop scenarios and configure it in FCM
- Develop DI job for different modules including SNA, ECM, Regulatory Report
- Developed Statistical Risk score models for assessing the risk score of accounts
- Create Stored Process and implement for various requirements in SNA & ECM
- Implement the SAS AML/ECM solution and map the data with bank's own data.
- Identified the risk associated with the customer based on the risk levels calculated.
- Customize the application according to Client Requirements (eg: Developing SNA Diagram, Developing and implementing complex workflow diagram ECM Case Investigation Process.)
- Making Front end/ UI level changes in ECM module according to client request.
- Through knowledge in SAS Programming, SAS Data Integration, SAS formats, SAS functions, SAS statements, SAS in formats, Merging SAS dataset, Storing and managing data in SAS.
- Developing new Regulatory Reports
- Handle admin level changes in SMC
- Developed Technical Design Documents for the developed code.
- Provided support on implementation and thereafter depending upon business requirements produce new release for any
- Support for all services related issues.
- Resolving bug with minimum reopen.

- Support the team in all activities

Project #4

Organization : Wipro (Project Engineer)

Client : Dena Bank & CBI RRB, Mumbai, India. (Onsite) (Shared Resource)

Duration : May-2015 to Jan-2017

Team Size : 7

Environment : Java, Tomcat Server, WebSphere, SQL Server, XML, JavaScript, HTML, Web Service

Roles in the project

- Development, Implementation and Support of E-Banking modules. Molding new team by training the resources.
- Interacting with Bank team as well as with vendors for solving their requirements.
- Converting the business needs to technical specifications and preparing development plans.
- Developing the modules by myself and in team. Monitoring in quality delivery as well as UAT and post live support.

Project #5

Organization: Wipro (Associate Engineer)

Title : Crime and Criminal Tracking Network System (CCTNS)

Client : NCRB, Delhi

Duration : Sep 2013 – Apr 2015

Team Size : 27

Environment : Java, spring, Java Script, MySql, Glassfish, Jasper.

Description:

Crime and Criminal Tracking Network & Systems (CCTNS) is a highly ambitious project done for the **National Crime Record Bureau (NCRB)** of India. The objective of the project was to develop a strong and transparent application to register and keep complete track of Crimes and Criminals for the 15000+ police stations throughout India.

Responsibilities:

- Used Spring Framework / JSP / Java for the application development.
- Involved in the development of major modules
- Took the responsibility of writing many complex queries at the DB level.
- Involved in report and register development team, worked on query part and done report design using

iReport3. .

- Involved in application development, Java bug fixes, UAT testing.

DECLARATION

- I hereby declare that the information furnished above is true to the best of my knowledge.

Place: Mumbai
