

AARYAN SINGH

Computer Engineering Student - AI & Full-Stack Development

+91 8450970751 • aaryansingh2810@gmail.com • linkedin.com/in/aaryan-singh-1b068828b • Mumbai, Maharashtra

Summary

I am a driven Computer Engineering student specializing in Artificial Intelligence and Full-Stack Development. I have experience in building AI-driven applications and designing scalable backend systems. My skills encompass Python, Django, Flask, and more, complemented by strong fundamentals in data modeling and API design. I am passionate about creating technology that merges intelligent automation with a seamless user experience and am eager to pursue opportunities in AI Research and Product Development

Education

Fr. Conceicao Rodrigues College of Engineering
Bachelor of Engineering

Mumbai
08/2023 - 05/2027

Projects

AI-Powered Resume Parser & Chatbot

08/2025 - 10/2025

AI-Powered Resume Parser & Chatbot (RAG-based) project focusing on recruitment automation

- Designed and implemented an AI-driven recruitment assistant that parses resumes and answers recruiter queries using NLP and RAG techniques
- Developed a conversational chatbot capable of natural language interactions powered by a semantic search pipeline using ChromaDB
- Automated profile enrichment through web scraping and data integration from public professional sources
- Deployed a functional MVP showcasing real-world scalability and recruiter engagement potential

Bail Reckoner

12/2024 - 03/2025

Bail Reckoner, a project aimed at automating legal tech processes

- Built a rule-based automation engine to assess bail eligibility under the Indian Penal Code and CrPC
- Engineered a modular backend with RESTful APIs supporting data-driven decisions for legal aid organizations
- Designed intuitive front-end workflows and dashboards to improve accessibility and transparency
- Documented system architecture, APIs, and process flows for scalability and handover readiness

Skills

Gmail • GitHub • Python • Django • Flask • React • API Design • NLP • JavaScript • ES6+ • SQL • HTML • CSS • Node.js • Express.js • REST • MongoDB • PostgreSQL • TensorFlow • PyTorch • Scikit-Learn • Pandas • Numpy • NLTK • SpaCy • Postman • Selenium • Visual Studio Code • Pytest • Web Scraping • Modular

Experience

Rotaract Club of Fr. CRCE
Sergeant-at-Arms

Mumbai
06/2025 - Present

A club aimed at developing leadership skills and providing service to the community

- Supervised event logistics and ensured seamless coordination across multiple departments
- Enhanced event efficiency and member engagement through structured planning and execution

Students' Council, Fr. CRCE
Technical Representative

Mumbai
05/2024 - 05/2025

A student organization at Fr. CRCE aimed at enhancing student engagement

- Developed and maintained the official Students' Council website using the MERN stack, improving information accessibility for 1000+ students
- Secured ₹40,000+ in sponsorships and partnerships through effective communication and stakeholder management
- Oversaw technical execution of large-scale college events, including hackathons, national debates, and tech fests with 1000+ attendees
- Created process documentation and reporting systems to improve digital workflow management

Interests

☆ Passion for AI and Product Development

Dedicated to exploring the intersection of technology and user experience through projects focused on AI and automation
