Summary

Aspiring Computer Engineering professional with hands-on experience in AI and Machine Learning concepts, adept in Python and its key libraries including TensorFlow and PyTorch. Key achievements include successful implementations of AI projects in academic settings and teamwork experiences in collaborative tech environments. Seeking an Artificial Intelligence Research Intern position at [company name], where my skills in AI and Machine Learning will support your mission of advancing cutting-edge technologies in Artificial Intelligence.

Education

Fr. Conceicao Rodrigues College of Engineering Mumbai
Bachelor of Engineering in Computer Engineering 08/2023 - 05/2027

Projects

AI-Powered Resume Parser & Chatbot (RAG-based) 08/2025 - 10/2025

A full-stack web application for resume parsing and analytics

- Built an AI-driven recruitment platform that parses and analyzes resumes using NLP and RAG techniques
- Developed a chatbot interface enabling recruiters to query resumes using natural language for faster candidate insights
- Implemented semantic search and document embedding pipelines using ChromaDB vector database
- Automated data enrichment via Selenium-based web scraping of professional profiles
- Deployed an MVP reaching active user adoption within the first release cycle

Bail Reckoner – Legal Tech Automation Platform 12/2024 - 03/2025

A legal tech automation platform supporting bail evaluation

- Designed and developed an intelligent legal automation system to evaluate bail eligibility based on statutory parameters
- Architected backend logic integrating Indian Penal Code and Criminal Procedure Code frameworks
- Enhanced judicial workflow efficiency by providing a data-driven and transparent interface for legal professionals
- Achieved MVP deployment with scalable architecture and modular front-end components

Skills

Gmail • GitHub • NLP • Python • JavaScript • ES6+ • SQL • HTML • CSS • React • Node.js • Express.js • Flask • REST • MongoDB • PostgreSQL • Scikit-Learn • Pandas • Numpy • NLTK • SpaCy • Selenium • Postman • Visual Studio Code • Web Scraping

Experience

Rotaract Club of Fr. CRCE Mumbai
Sergeant-at-Arms 06/2025 - Present

A community service organization

- Manage event operations, logistics, and cross-department coordination to ensure timely and professional execution
- Contributed to boosting member participation and operational efficiency through structured planning and communication

Students' Council, Fr. CRCE Mumbai
Technical Representative 05/2024 - 05/2025

A governing body for student representation

- Developed and maintained the official Students' Council website using the MERN stack, accessed by 1000+ students
- Led sponsorship outreach, securing ₹40,000+ in financial and in-kind contributions for college initiatives
- Directed technical execution of large-scale college events (hackathons, debates, Crescendo tech fest) with 1000+ attendees
- Collaborated with faculty and student teams to integrate digital registration and feedback systems, improving event analytics

Strengths

🔧 Soft Skills

Skilled in leadership, communication, analytical thinking, and cross-functional collaboration

Interests

☆ Areas of Interest

Interest in Generative AI, Quantitative Analytics, Product Strategy, and Human-AI Interaction
